Arkansas' Unemployment Rate Drops to 6.2 Percent in October

Arkansas Civilian Labor Force Summary:

Labor force data, produced by the U.S. Department of Labor, Bureau of Labor Statistics and released today by the Arkansas Division of Workforce Services, show Arkansas' seasonally adjusted unemployment rate dropped one full percentage point, from 7.2 percent in September (revised down from 7.3 percent) to 6.2 percent in October. Arkansas' civilian labor force declined 12,370, a result of 14,117 fewer unemployed and 1,747 more employed Arkansans. At 6.9 percent, the United States' jobless rate also declined one full percentage point between September and October.

BLS Program Operations Manager Susan Price said, "Arkansas' unemployment rate declined sharply in October to 6.2 percent. This was spurred by the decline in the number of unemployed Arkansans."

Arkansas' nonfarm payroll jobs increased 11,500 in October to total 1,243,900. Eight major industry sectors posted gains. **Professional and business services** added 4,000 jobs.
